

Connection Settings

☒ Setup by Activity

☐ Connect on App Start (Premium)

Activity

Share my GPS with a laptop or tablet that does not have GPS using NMEA

Connection Method

Use TCP/IP to send NMEA or host a GPSPD server

Name

NMEA4WIFI

CANCEL

NEXT

TCP/IP Settings

UDP

Use UDP instead of TCP

Host

192.168.4.1

Port

3000

TCP/IP Server

Select to act as a TCP/IP server and listen for incoming connections. Otherwise, act as a client. If a client, be sure there are not firewall settings blocking this port or traffic on the server.
